Hi Christine,

Please find attached for IMB (Izin Mendirikan Bangunan)
Gambar Izin (drawing permit) on CAD format.

Other images are from goverment, after the clients request and submit
his sertificate of the land. It will tell us the areas regulation.

For middle house areas (Wisma Sedang) KDB 0.55 KLB 0.96 Means GFA on
ground floor 0.55 and FAR 0.96
But for small house areas (Wisma kecil) KDB 0.6 KLB 1.2

For the wall height are 7m Max, The top of roof are 12m.
The fence are 1.5m.

We don't know the setback yet. Maybe around 6m.
Hope this is helpfull.

Regards
Ajit
